

# RAMBERT GRADES TRAINING TO EMPOWER

**We know that every dancer is different, and we think that's brilliant.**

## WHAT IS RAMBERT GRADES?

**Rambert Grades** is a pioneering **contemporary dance syllabus** born from the partnership between two of the world's leading contemporary dance organisations: **Rambert** and **Rambert School**.

Our 8-grade syllabus offers students the opportunity to develop lifelong skills. Rambert Grades encourages young people to own their individuality, be playful, work in a present manner, think independently, relate with others and have confidence in decision making while learning and embodying our three strands, **Technique**, **Performance** and **Creative**. Our trained teachers are taught to promote a safe environment where physical explorations can exist without rigidity, yet with focus, discipline and collaboration. Students are seen as individuals and encouraged to express their ideas and discover their unique voices.

Each grade includes exploring how to create material and improvise, learning all elements of technical skill to the highest standard, from floorwork to complex leaps, and performing solo material from world class choreographers, Hofesh Shechter and Alesandra Seutin.
